Accreditation of surveying courses continued to be pursued in accordance with the approved Policy and Procedures for Course Approval, Maintenance and Review. During the year, one local degree programme and one mainland degree programme were accredited. One overseas programme was under the assessment process.

The Board wishes to take the opportunity to express its appreciation to all members on the Panel of Experts who have contributed much of their time and energy to various vetting and assessment activities.

Assessment of Professional Competence (APC)

During the calendar year of 2009, there were 269 new APC candidates (93 BS, 57 GP, 12 LS, 100 QS, 1 PD and 6 PFM). This represents an overall decrease of 9.4% over the 2008 figure of 297 candidates (88 BS, 71 GP, 16 LS, 113 QS, 2 PD and 7 PFM).

Apart from the P&D Division, assessors of which are yet to be recruited, there are currently 173 BS, 250 GP, 78 LS, 589 QS and 7 PFM Assessors. The full lists of the Divisional Panel of Assessors are attached in the Annexes. The BOE wishes to record a note of appreciation to all the Assessors who have made much contribution to maintaining the professional standard of the new surveyors. In order to help APC candidates better prepare themselves for the assessments, the Young Surveyors Group in collaboration with the respective Divisions organized workshops and training programmes, which were well received by candidates.

The Practical Task of the BSD was held on 4 to 7 November 2009 with the involvement of some 93 assessors and moderators. A total of 92 candidates attempted and 47 (51.1%) passed. There were 52 candidates undertaking the Practical Task for the first time and 24 (46.2%) passed. Professional interviews were conducted throughout the year. A total of 79 candidates presented themselves in 2009 for professional interview and 52 (65.8%) were found satisfactory. A critical analysis is required upon completion of the 21st month of training. There were 308 candidates undertaking the analysis and 80 (26%) passed.

The Written Assessment of the GPD was held on 7 October 2009. A total of 78 candidates took part and 46 (59%) passed. Professional interviews were conducted for 53 candidates of whom 30 (56.6%) were found satisfactory.

During the year, six Land Surveying candidates applied for the final assessment and three passed (33.3%).

On 17 to 18 September 2009, 279 candidates attempted the Practice Problem of the QSD. The papers were each marked by three assessors and 103 (37%) candidates passed. Professional interview for 119 candidates were conducted and 86 (72.3%) were found satisfactory.

The Practical Task of PFMD was held on 28 November 2009. One candidate undertook the Practical Task and passed. One candidate applied for final assessment and passed.

Assessment of Technical Competence (ATC)

For the LSD ATC, three candidates were assessed and passed the final assessment.

The QSD ATC written and oral assessments were held on 15 May 2009 and 22 June 2009 respectively. One candidate attempted and passed the final assessment.

BOE visits to local universities

In 2009, the Board arranged five visits to the local universities and the following faculty / departments / division were visited. The visits were attended by Board members and the Office Bearers.

30 April 2009	Department of Building and Construction The City University of Hong Kong
25 September 2009	Department of Building and Real Estate The Hong Kong Polytechnic University
14 October 2009	Faculty of Construction and Land Use The Hong Kong Polytechnic University
16 October 2009	Division of Building Science and Technology The City University of Hong Kong
24 November 2009	Department of Real Estate and Construction The University of Hong Kong

During the visits, Board members expressed their concern that the university programme contents have become too general and the coverage and depth of the university graduates professional knowledge was insufficient. The Board therefore suggested nominating professional advisers to the universities course planning team to offer advice to the programmes which seek for accreditation or re-accreditation. The Board also suggested that regular meetings between practitioners and academics could be arranged to strengthen the communication and more promotional activities should be organized to introduce to the university students the scope of services of the professional surveyors at an earlier stage.

Working groups for the 3-3-4 Education Reform

Professor Robert Li (CityU), Dr Y H Chiang (PolyU) and Dr S W Poon (HKU) attended the BOE meeting on 21 September 2009 to present the new four-year degree curriculum to the Board members. To enable sustained liaison with the local universities in programme planning in line with the 3-3-4 education system, a working group for degree programmes and a working group for sub-degree and higher diploma programmes were formed. The working groups should study the curriculum documents of the universities, gear the need and wishes of the industries and the profession, formulate our expectation in a co-ordinated, consistent and sustained manner on the surveying education and communicate our need and wishes to the universities.

APC and ATC Reform

Subsequent to the meeting with the Divisional Education Committees on 30 May 2009, it was concluded that the existing APC and ATC Schemes should be reformed. The Board therefore held four more meetings with members from General Council and Divisional Councils to discuss the APC and ATC Reform. The aim of the reform is to open up wider opportunities for people of various backgrounds to become or keep engaged in the surveying profession, to secure recognition of their competencies, and to advance from technical level to professional level, all within a reasonable time frame, so long as they are capable. The reform proposal was submitted to and approved by the General Council on 25 March 2010 for distribution for general members comments. The major changes to the APC and ATC are highlighted as follows:

- Alternative qualification routes to be reasonably shortened.
- Integration of the APC and ATC to become a single ladder, to retain those already engaged in surveying practice and to offer greater chances for their professional advancement.
- One probationer grade, replacing the existing probationer and technical trainee grades, for Professional Training and Assessment.
- Multiple entries to the probationer grade, thus attracting a wider spectrum of potentially suitable people.
- Accumulation of academic qualification and working experience can be concurrent, rather than sequential, such that initially inadequate academic qualification can be topped up during an extended period of training.
- Two levels of competence, one being at technical level and the other at professional level.
- Probationers attaining the technical level of competence will be awarded Associate Membership (AHKIS), (replacing the existing Technical Membership (TAHKIS)), thus giving earlier recognition to degree holders and expanding the base of the previous TAHKIS.

- MHKIS must have satisfied the two levels of competence. This verifies that professional members should also be technically competent in the first place. It should be a benefit to them but not a pre-requisite that they should have been AHKIS.
- All existing Technical Trainees will become Probationers.
- All existing Technical Associates will become Associates.

It has been another busy but fruitful year for the members of BOE, DEC, assessors and the Panel of Experts. I would like to take this opportunity to express my appreciation to all colleagues who have worked extremely hard and made significant contributions to the profession. Thank you very much for your dedicated service!

Tang Ki-cheung, FHKIS
