HKIS Annual Conference 2017

GOLDEN OPPORTUNITIES in the Ageing Community and Built Environment

EARN CPD 6 Hours

In order to maintain sustainable growth after years of development as one of the world's most competitive financial and business centres, Hong Kong must adapt to and create the capacity for its expanding ageing community. Hong Kong has become an aged city in both population and infrastructure, and its future development hinges on vast modifications to the living environment to accommodate the elderly.

Although this poses critical challenges to the community, this conference will explore and present golden opportunities for companies in the property sector and beyond, from building rehabilitation and urban renewal to the construction of community facilities.
