Sr Kirsten Lam YSG Committee Chairlady

Social Services Sub-committee

Lead by Sr Yoyo Li & Sr Tracy Wong

The second half of 2019 was a difficult time for many Hong Kongers. In response to the intense social atmosphere, YSG decided to set up a Social Services Sub-committee to bring some positivity to society.

The committee is dedicated to promoting volunteer work. Its objective is to communicate with the needy in society to understand their difficulties and offer help. By establishing a platform to link YSG members with those who are in need, YSG wishes to enhance members' awareness of society's underprivileged and encourage them to participate in various volunteer services.

YSG originally planned a series of events this year for disabled children, the elderly, and ethnic minority groups, so as to offer its members more volunteer opportunities. However, due to the outbreak of COVID-19, it has postponed these events in favour of joining with the BSD to fight the pandemic by repackaging facemasks and sanitary items to distribute to street cleaners. This meaningful event demonstrates YSG's concern for society's most vulnerable members and increases its members' civic mindedness.

YSG's next event is a tree-planting event organised by the Agency for Volunteer Service on 4 July 2020. It expects this to be another memorable event for its members. Going forward, YSG will continue to explore different charity programmes and initiate voluntary services for society's neediest groups such as the elderly, disabled children, and ethnic minorities.

For those who are interested in joining these activities, don't hesitate to contact the YSG committee.

Sports Sub-committee

Lead by Iris Mak & Sr Sunny Wong

YSG has established a sports sub-committee, whose goal is to enhance members' interpersonal relationships and promote a healthy lifestyle. The objective of the Sports Sub-committee is to hold 3-4 sporting events during any given year. Sports classes for golf and lacrosse and competitions such as those for badminton will be first on the agenda. Each class or competition should cater to around 20 members. By joining these sports activities, members should be able to foster new relationships with other members and develop a fitness routine.
