NOVEMBER 2023 SURVEYORS TIMES

Sr Paul WONG

In my penultimate month, I have never been busier—with no sign of things slowing. More than 40 events filled my November calendar, including the Green Building Awards Dinner and the Awards Presentation Ceremony on the 3rd and the HKIA Annual Ball-cum-Annual Awards Presentation 2023 on the 8th. I was deeply honoured to be a judge for the Quality Building Award 2024 which held its award briefing session on the 16th. The busier, the merrier: this must mean we're on a sure path to normalcy.

Housing needs of younger generations

On 4 November, I joined Young Surveyors Group (YSG) Chairman Sr Wilson Ko (2022–23) and the Secretary for Housing, Ms Winnie Ho Wing-yin, JP, in a face-to-face exchange with our young members about their concerns over housing. The session, at the Surveyors Learning Centre, was productive and touched on public housing development and what lies ahead.

Our views on various housing policies were broadcast in a Now TV current affairs programme on 14 and 20 November. Aside from the government's brand-new Private Subsidised Sale Flat—Pilot Scheme to help more young people buy privately-developed property in interview one, I was invited to talk

about the pros and cons of extending the Home Ownership Scheme mortgage guarantee. On 13 November, the Hong Kong Economic Times, in its Weekly Talk column, outlined the Institute's suggestion to suspend the Green Form Subsidised Home Ownership Scheme, and urge the Government to build more Pilot Scheme housing to enable young families to own their home.

HKIS Annual Dinner

Our signature event made a glorious, full-scale return after pandemic restrictions: what better way to acknowledge achievements and contributions? A record turnout at a grand venue, the Hong Kong Convention and Exhibition Centre, filled with more than 760 distinguished guests, sponsors, members, and professionals from various sectors.

It was a great pleasure to have our guest of honour, the Honourable Regina Ip Lau Suk-ye, GBM, GBS, JP, Convenor of the Non-official Members of the Executive Council of the HKSAR, at this unprecedentedly grand event.

This has been a challenging year but rewarding and busy for the surveying profession. The relaxation of all COVID-19 restrictions and the reopening of borders have brought us local and global opportunities. As the leading professional body representing the surveying profession in Hong Kong, the HKIS has played an active and important role in many ways.

The evening was immensely enjoyable, made all the more so for the attendance of distinguished guests making an unforgettable evening.

In my speech, I touched briefly on the Institute's 2023 achievements in many areas, including public policy participation, cultivating the next generation, connection with members and industry stakeholders, intensifying cooperation and exchange with the Mainland, and international affairs. I thanked the Annual Dinner Organising Committee, led by Vice-President Sr Tony Wan, for their outstanding work in making the dinner so successful, and especially thanked all sponsors, who generously gave their support.

As President, I am proud and honoured to lead such a remarkable and outstanding Institute and profession. I appreciate the great work done by the six Divisions and our YSG, in particular our young members. I am confident our future holds even greater success.

Promoting surveying

The Institute works constantly to promote surveying, in the wider community and within the profession. On 4 November, we produced a video encouraging all members to continue their own advancement through Continuous Professional Development courses.

In a 29 October Ming Pao Daily News interview, I highlighted the great opportunity represented by the Greater Bay Area and the Institute's hope for a simplified process of mutual recognition of Hong Kong surveyors and Mainland cost engineers.

Watch out for the five-minute video interview with ASPL Sub-sector Legislative Councillor Sr Tony Tse on 31 October, in which I introduced our Institute and the work of our Divisions.

Congratulations to the winners of the HKIS Singing Contest held on 18 November. These surveying songbirds will represent us in the Annual Joint Professional Singing Contest on 11 December.

Closer government ties

I am grateful to see our efforts to communicate more closely with the Government paying dividends. On 1 November, the Housing Authority Quantity Surveying Association visited the Institute for a 90-minute meeting.

On 7 November, I met the Director of Buildings, Clarice Yu Po-mei, JP, with Vice-President Sr Robin Leung and BSD Chairman Sr Arthur Cheung. I expressed my view on site safety and reviewed the Authorised Signatory system, drawing on my project management experience at a construction company. We asserted that relying solely on penalising negligent contractors is far from effective: the onus must be placed on all concerned bodies, including government, developers, consultants, front-line management and workers, to develop a preventative culture.

I represented the HKIS at a communication meeting with the Association of Consultant Quantity Surveyors, the Development Bureau and Architectural Services Department on 17 November, and at the Consultation – Revision of “Code of Practice – Safety and Health at Work in Confined Spaces” on 21 November.

At a 21 November briefing session on Policy Address initiatives, the Permanent Secretary for Development (Planning and Lands), Doris Ho, shed light on two initiatives announced by the Chief Executive, Mr John Lee Ka-chiu:

extending the “Enhanced Conventional New Town Approach” to new development areas; and making standard rates regular on land premium charges for redeveloping industrial buildings.

Keeping abreast of industry developments

On 10 November, I attended the Construction Industry Council (CIC) Chairman's Lunch. We discussed total life-cycle asset management. Mr Alex Ho, Director of Industry Development, gave an insightful presentation on challenges such as labour shortages, an ageing workforce and workers' safety, especially with so many construction projects. Then, we had thought-provoking discussions on how organisations resolved challenges with digitalisation, including Digital Twin, building information modelling (BIM), common data environments (CDE), digital works supervision systems (DWSS) and smart site safety systems (SSSS).

I also attended the CIC's Construction Safety Week 2023 – Construction Safety Week Carnival promoting site safety on 19 November.

離任期屆滿還有個多月，學會工作依然忙碌，我亦未敢放慢節奏。11月份，行程表被超過四十多個活動填得滿滿，包括11月3日的「環保建築大獎2023」頒獎晚宴，以及11月8日的香港建築師學會年度晚宴暨2023年獎頒獎典禮等等。我很榮幸能夠獲邀擔任「優質建築大獎2024」評審，並在11月16日出席簡介會。這意味著復常之路已經步上正軌。

年輕人住房需求

11月4日，我與青年組 (YSG) 主席高德仁測量師 (2022-23) 及房屋局局長何永賢女士，JP一起跟年輕會員面對面交流，以了解他們對房屋問題的關注。這次具成效的對談活動假測量師研習中心舉行，當日我們扼要地談及公共房屋發展和未來的方向。

學會對政府各種房屋政策的觀點分別在11月14日和20日的Now TV時事節目中播出。除了在第一個訪問探討政府全新推出、幫助更多年輕人置業的私人興建資助出售房屋先導計劃（「樂建居」），我後來還獲邀請在第二個訪問分享延長居屋按揭擔保的利弊。11月13日，《香港經濟日報》刊登了學會建議暫停綠置居計劃，並主張政府興建更多居屋，讓年輕家庭置業。

學會周年晚宴

在疫情限制措施解除後，學會周年晚宴活動盛大回歸，讓大家聚首一堂，回顧過去一年學會的工作。今年我們特別移師至香港會議展覽中心舉行，更歷史性邀得超過760位嘉賓、贊助商、會員和各界專業人士齊聚參與。

學會非常榮幸能夠邀請到主禮嘉賓——香港特別行政區行政會議非官守議員召集人、香港立法會議員葉劉淑儀女士，大紫荊勳賢，GBS，JP出席這個盛大的晚宴。

隨著疫後復常，本港全面通關，香港及全球各界的聯繫再次活躍，帶來更多本地和全球化的機遇與活動。今年是既繁忙又具挑戰性的一年，學會同樣獲益良多。香港測量師學會作為代表香港測量業界的專業團體，致力在不同範疇發揮積極作用，並承擔主動和重要角色。

晚宴氣氛非常愉快，出席的嘉賓都度過了一個

難忘的晚上。席間，我重點介紹學會過去一年的重要成果，包括：公共政策參與、培育年輕新一代、締結測量師會員的聯繫、加強與內地合作交流及參與國際事務。年度晚宴籌委會在副會長暨晚宴籌備委員會主席溫偉明測量師帶領下成功舉行，我對他們表示衷心感謝，我亦特別鳴謝慷慨支持今次晚宴的贊助商。

作為會長，我感到非常自豪和榮幸能夠帶領一個如此卓越的學會。對於六個專業組別和青年組的出色工作，本人深表欣賞，同時也對學會前景充滿信心，未來定必再創輝煌。

推廣測量業

學會一直致力於社會和行業內推廣測量專業。在 11 月 4 日，我們製作了一段影片，鼓勵所有會員通過持續專業發展課程繼續提升自己。

在 10 月 29 日的《明報》訪問中，我強調了粵港澳大灣區創造的巨大機遇，以及對未來簡化香港測量師和內地造價工程師資格互認過程的期望。

請密切留意我與立法會議員謝偉銓測量師於 10 月 31 日錄製的五分鐘訪問短片，當中介紹了學會與旗下各個專業組別的工作。

此外，我祝賀在 11 月 18 日參加學會歌唱比賽中勝出的會員。他們將代表學會參加在 12 月 11 日舉行的年度聯合專業歌唱比賽。

與政府緊密聯繫

我很高興學會與政府的緊密聯繫取得成果。房屋署工料測量師公會於 11 月 1 日到訪了學會，進行了長達 90 分鐘的會議。

在 11 月 7 日，我聯同副會長梁志添測量師和建築測量組主席張文滔測量師，與屋宇署署長

余寶美女士，JP 會面。我憑藉在建築公司的項目管理經驗，表達了對工地安全及授權簽署人制度的看法。同時，學會強調僅依賴懲罰疏忽的承包商絕對不足夠：所有相關機構，包括政府、發展商、顧問、承包商、前線管理層和工人，都應共同建立預防工地意外文化。

我代表學會於 11 月 17 日與香港專業工料測量顧問公會、發展局和建築署會面溝通，並在同月 21 日參加了關於「密閉空間工作安全與健康」工作守則修訂的諮詢。

在 11 月 21 日的施政報告措施簡報會上，發展局常任秘書長（規劃及地政）何珮玲女士，JP 向我們介紹了特首李家超先生宣布的兩項倡議：擴大「加強版傳統新市鎮發展模式」至其他新發展區，以及將工廈重建的補地價制度標準化。

與行業同步發展

11 月 10 日，我參加了建造業議會（下稱議會）舉辦的主席午宴。午宴討論全面生命周期資產管理。基於本港未來有大量工程開展，議會的行業發展助理總監何炯光先生就勞工短缺、高齡化勞動力，以及工人安全等挑戰進行詳細的講解。與會者然後對機構如何利用數碼化科技應對挑戰作啟發性討論，包括數碼分身、建築信息模型（BIM）、共通數據環境（CDE）、數碼工程監管系統（DWSS）和安全智慧工地系統（SSSS）。

我還出席了議會於 11 月 19 日舉行的 2023 年建築業安全週——建造業安全周嘉年華，為推動工地安全出一分力。

Across the globe, the Environmental, Social and Governance (ESG) have become important pursuits of corporations, professional and government bodies alike. Surveyors, working on the built environment, have significant contributions to ESG through sustainability efforts.

Working Group on Sustainability

At HKIS, the former Working Group on Green Building has been transformed into the Working Group on Sustainability in 2022 with the aim to raise industry standards on ESG. Acting as a platform for surveyors and other professionals, the Working Group liaises with relevant professional organisations including the Professional Green Building Council (PGBC), BEAM Society Limited (BSL), and the Hong Kong Green Building Council (HKGBC) to promote better standards.

According to Sr Chiu Kam-kuen, Chairman of the Working Group on Sustainability and Immediate Past President of the HKIS, as well as Sr Andrew Chan, Vice-Chairman of the HKIS Working Group on Sustainability and Chairman of HKIS General Practice Division, the building and construction industry in Hong Kong contributes to over 60% of the carbon emissions of the entire city. Electricity consumption in buildings contributes to 80% to 90% of total consumption. The built environment thus has much to do with carbon emissions and reduction.

Surveyors in consulting firms can help listed companies prepare ESG reports to meet requirements set out by Hong Kong Stock Exchange. On top, surveyors have important roles to play throughout life cycles of buildings. First, during site selection, land surveyors use Geographic Information System (GIS) to comprehensively evaluate geographical data and climate related risks, such as whether a site is within a zone with severe risks when it is under extreme weather conditions like flooding. During the planning and design process, quantity surveyors are involved in cost and carbon emission management, particularly in relation to construction materials and embodied carbon, providing recommendations to enhance

cost efficiency in resource utilisation and carbon reduction. Building surveyors, and property and facility management surveyors, are concerned with carbon reduction during building stage and after the buildings are in use respectively. Such includes identifying locations for installing sensors to achieve energy-saving goals.

General practice surveyors help evaluate Green Risks. At consulting firms, surveyors help corporate clients in Hong Kong, Mainland China and the Asia Pacific localise ESG standards and management procedures prescribed by the global headquarters of multinational corporations, ensuring their effective implementation in practical operations. For instance, surveyors may evaluate whether the venues their clients hope to rent comply with corporate ESG standards. These specific standards encompass a diverse set of requirements and may include additional criteria and specifications that go beyond the scope defined by Building Environmental Assessment Method Plus (BEAM Plus) or Leadership in Energy and Environmental Design (LEED), which is the world's most widely used green building rating system.

In the age of Green Finance, general practice surveyors could act as verifiers to ensure that the clients' project meet specific ESG requirements and key performance indicators suggested by financial institutions, so that the clients can successfully apply for green or sustainability-linked loans with favourable rates to launch their development projects.

In terms of construction methods, projects with strong requirements for deep excavation to enable strong foundations, or underground carparks deep underground, are not the most environmentally-friendly due to strong reliance on machines and energy. As for materials, different materials have varying implications on temperature indoors. Careful selection can thus help reduce energy consumption. In contrast to certain development projects that procure materials from distant origins, there is a growing preference for utilising materials sourced from closer proximity to Hong Kong, to minimise logistics and environmental footprints.

Sr Chiu refers to the Chief Executive's Policy Address which elaborates on the government's goal to amend the Buildings Energy Efficiency Ordinance, including extending the scope of regulation to more types of buildings, mandating the disclosure of information in energy audit reports, and shortening the interval of energy audit. The government aims to commence the legislative exercise next year.

The Address also proposes optimising the Modular Integrated Construction (MiC) approach to enhance speed, efficiency and quality. Sr Chiu responded, "MiC, which involves controlled indoor factory environment, facilitates efficient resource utilisation and ensures uninterrupted manufacturing processes even in adverse weather. Moreover, there is a growing aspiration for factories to be located in close proximity to, if not directly within, the construction site. This strategic positioning aims to further diminish transportation requirements and enhance logistical efficiency." And rather than focussing on tearing down ageing buildings, the Policy Address also encourages building maintenance, which saves resources. As the Address promotes Building Information Modelling (BIM) by promulgating a roadmap for its adoption, Sr Chiu welcomes the Buildings Department's plan to fully adopt BIM technology which will further facilitate calculation of carbon reduction.

As for conservation, Sr Chan quoted the non-in-situ land exchange in Sha Lo Tung (SLT) as a successful example to preserve the area with high ecological value. With fung shui woods, an ecologically-important stream, and as a sanctuary for dragonflies, Sha Lo Tung ranks second among the 12 priority sites under the New Nature Conservation Policy. Conservation can be achieved as the developer has been granted land at the Shuen Wan Restored Landfill (SWRL) in Tai Po via non-in-situ land exchange and the payment of a land premium. The total area to be conserved in Sha Lo Tung, including land owned by the government and land to be conserved in collaboration with the developer, is over 50 hectares.

"With the trend of ecologically-oriented

development, there is now green transformation and comprehensive development and planning of land. For instance, rivers and lakes on the Mainland can be transformed into sewage treatment facilities, and there are also plants for regenerative energy generation."

The Working Group on Sustainability has been organising Continuing Professional Development (CPD), seminars and joint events to enhance sustainable practices in the surveying profession. Such includes a hybrid CPD 'Powering a Carbon Neutral Hong Kong' in March, and an upcoming CPD 'From Building Green to Ever-green Buildings: A Hidden Contribution to ESG in the Real Estate and Construction Sector' in December.

Prior to these, an event was co-organised with the Beijing Forum in January on 'The Next Decade of China's Green Building' about China's Green Building Label system, and the differences between systems in Hong Kong and on the Mainland. In June last year, the Working Group had also invited speakers to speak on food and plastic waste management in multi-storey buildings.

HKIS Awards

To take ESG efforts further, the Institute is launching the inaugural HKIS Awards 2024. Transformed from the Best Development and Conservation Award, which was introduced three years ago, the HKIS Awards will now include the Environmental, Social and Governance (ESG) elements.

With the theme 'Surveying for a Sustainable Future', the Awards recognise surveyors' roles in projects that meet high standards of sustainability and that contribute to green and eco-friendly environment. They align with the HKSAR government's aim to achieve carbon neutrality before 2050.

Globally, the goals of HKIS Awards 2024 are consistent with Sustainable Development Goals 2015 set by the United Nations. Among the UN SDGs, special attention is given by the Awards to achieve the objectives below:

- Goal 6: Clean water and sanitation (to ensure availability and sustainable management of water and sanitation for all);
- Goal 7: Affordable and clean energy (to ensure access to affordable, reliable, sustainable and modern energy for all);
- Goal 9: Industry, innovation and infrastructure (to build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation);
- Goal 11: Sustainable cities and communities (to make cities and human settlements inclusive, safe, resilient and sustainable);
- Goal 12: Responsible consumption and production (to ensure sustainable consumption and production patterns); and
- Goal 13: Climate action (to take urgent action to combat climate change and its impacts).

Since the Chinese government and the UN System in China have embarked on cooperations set out by the United Nations Sustainable Development Cooperation Framework (UNSDCF) for China 2021-2025, the HKIS Awards are consistent with national objectives for sustainability.

"This is the first time in the Institute's history when we have the Awards named after HKIS. As an institute and industry-wide recognition for surveyors, the HKIS Awards aim to recognise surveyors' exceptional achievements to development projects, achievements that are equally important when compared with those of other building-related professionals." Sr Prof Winnie Shiu, Chair, Organising Committee of the HKIS Awards 2024 and HKIS Past President, stated.

Apart from awarding projects within HKSAR, there is now a new award category for projects outside Hong Kong. Besides, there are categories that correspond with the phases within project development cycles. They are: Planning, Pre-construction, Construction, Sales and Leasing, and Post-occupation. Open to all development projects ranging from Residential, Commercial, Government, Institution or Community (GIC) to Industrial projects, the Awards welcome projects related to both new and existing buildings.

The judging criteria have two newly added emphases to enhance sustainable development. The first one is Sustainability Values, Processes, and Impact, which encompasses innovative sustainable practices, energy-saving strategies, government policies and procedures, as well as their environmental, social and economic impact. The other is Innovation and Technology, which stresses feasibility, adoption of technologies, cost-effectiveness, comfort and well-being. These two new benchmarks are meant to encourage all companies, listed and non-listed, to make efforts and creatively dedicate resources to ESG reports and improve their Environmental, Social and Governance performance.

The Institute's past presidents, comprising the First Screening Committee, will conduct first-stage screening to shortlist prospective entries. High-ranking leaders from the HKSAR government, the industry, the academia, and the technology professions will act as jurors in the Jury Panel to select winning entries from among the finalists. Convened by HKIS Past President Sr Lau Chun-kong, the jurors will ensure professionalism and credibility of the Awards.

ESG Goals

To conclude, HKIS has stated ESG Goals to provide a clear picture for surveyors. The Institute aims to shape a sustainable real estate sector by leveraging professionalism to promote sustainable and responsible business practice. It engages in government policymaking to provide ESG-related advice. Maintaining regular and transparent dialogue with stakeholders, it also reaches out to the community to raise awareness of sustainability.

測量師貢獻環境、社會及管治 (ESG) 首辦香港測量師學會大獎

綜觀全球，「環境、社會及管治」(ESG) 已成為企業、專業團體和政府機構十分重視的目標。測量師的工作跟建築環境息息相關，透過可持續發展為 ESG 帶來重要貢獻。

可持續發展工作小組

香港測量師學會轄下的綠色建築工作小組已於 2022 年改組為可持續發展工作小組，目標包括提升業界的 ESG 水平。作為測量師和其他專業人士的平台，工作小組聯繫相關專業團體，包括環保建築專業議會、建築環保評估協會、香港綠色建築議會等，讓業界在這些範疇上達致更佳水平。

可持續發展工作小組主席及上任會長趙錦權測量師，和工作小組副主席及產業測量組主席陳家輝測量師指出，全港超過六成的碳排放來自樓宇及建築業，而樓宇用電則佔總耗電量八至九成。因此，建築環境跟碳排放以及減排關係密切。

任職顧問公司的測量師，可協助上市公司準備 ESG 報告，以滿足香港交易所的要求。此外，測量師在樓宇生命周期的不同階段，均扮演重要角色。首先在選址階段，土地測量師使用地理信息系統 (GIS) 全面分析地理數據及與氣候相關的風險，例如該地段是否位處易於受到水浸等極端天氣影響的區域內。在規劃與設計過程中，工料測量師管理成本和碳排放量，尤其在建築物料及有關的碳排放上，提供建議讓能源使用和減碳更具成本效益。建築測量師和物

業設施管理測量師則分別在建築期間和樓宇落成使用後推進減碳進度，例如確認安裝偵測器的位置以收節能之效。

產業測量師協助評估綠色風險。顧問公司內的測量師能協助跨國企業於香港、內地和亞太地區的分部將國際總部製訂的 ESG 標準和管理流程本地化並落實，確保能夠在實際操作環境下有效執行。舉例說，測量師可以衡量這些企業客戶擬定租用的辦公室是否符合企業對 ESG 的標準，這些標準涵蓋的要求非常廣泛，除「綠建環評」(BEAM Plus) 和全球最常用的綠色建築認證計劃「能源與環境先導設計」(LEED) 以外，還可能包括其他準則和規範。

在綠色金融時代，產業測量師可以認證人員的身份，確保客戶的項目符合金融機構對 ESG 建議的特定要求和關鍵績效指標 (KPI)，從而申請與綠色或可持續發展表現掛勾的貸款，開展發展項目。

就建築方法而言，需要依靠深層挖掘以鞏固地基的項目、或多層地下停車場等，都不是最環保的項目，因為它們特別依賴機器和能源。建築物料方面，不同物料對維持室內溫度有不同的效果。細心選擇物料有助減低日後的能源消耗。相比某些選用源自遙遠地區建材的發展項目，現時更多項目傾向採購來源地較接近香港的建材，從而將運輸需求與環境足印減至最低。

趙錦權測量師引述特首的施政報告，政府計劃修訂

《建築物能源效益條例》，包括擴大監管範圍至更多類別的建築物、強制公開能源審核報告資料、縮短能源審核周期等。當局的目標是於明年展開立法工作。

施政報告亦建議利用組裝合成提速、提效、提質。趙錦權測量師指出：「組裝合成建築方法涉及可控制的室內工廠環境，可以有效運用資源、和確保施工不受惡劣天氣影響。此外，一般越見期望這些製作模件組的工廠能設於工地附近甚至工地之內，藉著有利位置進一步減低運輸需求及提高物流的效率。」再者，解決老舊樓宇問題的方法除了拆卸外，樓宇維修可以更節省資源；施政報告亦予以鼓勵，報告指出政府將公布全面採用建築信息模擬技術 (BIM) 的路線圖。趙錦權測量師對屋宇署計劃全面採用 BIM 技術表示歡迎，此舉有助計算減少碳排放。

至於保育方面，陳家輝測量師指出沙羅洞非原址換地計劃是高生態價值地區獲得保育的例子之一。擁

有風水林、具重要生態價值的河溪、享有蜻蜓天堂美譽的沙羅洞，在新自然保育政策下 12 個須優先加強保育地點中排名第二。為了長遠保育，發展商獲政府以非原址換地的形式批予大埔船灣已修復堆填區內一幅土地，公司需按市值補地價。基於發展公司配合保育的土地、加上毗鄰的政府土地，政府在沙羅洞進行長遠保育計劃的土地面積共逾 50 公頃。

他稱：「在注重生態的發展趨勢下，綠色轉型、綜合發展規劃均備受重視。譬如說，內地的河川和湖泊可以轉變成污水處理設施；也有製造再生能源的設施出現。」

可持續發展工作小組一直舉辦持續專業發展項目、研討會及聯辦活動，以加強測量業界的可持續發展。當中包括三月以實體與網上舉辦的持續專業發展項目「推動香港達至碳中和」，以及將於十二月舉辦的網上講座「從綠色建築到樓宇減排節能：房地產與建築業界對 ESG 鮮為人知的貢獻」。

此前，工作小組於去年一月份與北京議會共同協辦「中國綠色建築的下一個 10 年」研討會，討論中國綠色建築標識體系，以及香港與內地系統的同異。小組亦於去年六月邀請講員主講多層大廈的廚餘和塑膠廢物管理。

香港測量師學會大獎

為進一步推廣 ESG，學會推出首屆香港測量師學會大獎 2024。獎項從三年前創辦的優秀發展及保育大獎演變而來，並加入了 ESG 元素。

大獎以「創新專業測量·實現可持續未來」為主題，表彰測量師對高標準可持續發展項目、綠色和環境友善等範疇作出的貢獻，與特區政府力求在 2050 年前達致碳中和的目標一致。

放眼全球，香港測量師學會大獎 2024 的目標跟與聯合國在 2015 年設定的可持續發展目標相符。在眾多目標當中，大獎特別專注以下數項：

- 目標 6：清潔飲水和衛生設施（為所有人提供水和環境衛生並對其進行可持續管理）
- 目標 7：經濟適用的清潔能源（確保人人獲得可負擔、可靠和可持續的現代能源）
- 目標 9：產業、創新和基礎設施（建設具有適應力的基礎設施，促進包容性和可持續的工業化，推動創新）
- 目標 11：可持續城市和社區（建設包容、安全、有抵禦災害能力和可持續的城市和人類住區）
- 目標 12：負責任消費和生產（確保採用可持續的消費和生產模式）
- 目標 13：氣候行動（採取緊急行動應對氣候變化及其影響）

因應中國政府與聯合國駐華系統商議通過《聯合國對華可持續發展合作框架（2021-2025 年）》，香港測量師學會大獎亦緊隨國家的可持續發展方向。

香港測量師學會大獎 2024 籌備委員會主席和前會長蕭慧儀教授測量師表示：「香港測量師學會有史以來首度以學會名稱為獎項命名，香港測量師學會大獎 2024 表揚香港測量師的傑出成就，表彰測量師為創造可持續未來作出的卓越貢獻。測量師的貢獻，相比其他建築相關專業人士毫不遜色。」

除了表揚香港的發展項目，大會今年新增為香港境外項目而設的獎項類別。此外，申請的項目可以處於發展周期任何階段，獎項類別包括規劃、建築前期、建築工程、物業銷售及租賃、和後期營運。大會接受所有類型發展項目的提名，包括住宅、商業、政府、機構或社區（GIC）及工業項目，並且歡迎新建和現有建築項目參賽。

大獎新加入兩個重點以促進可持續發展，第一項是可持續發展價值觀、過程及影響，涵蓋可持續發展的創新實踐、節能策略、政府政策及程序，以及其對環境、社會及經濟效益的影響。第二項是創新與科技，強調可行性、科技應用、成本效益、舒適度及福祉。這兩個全新基準，旨在鼓勵所有上市或非上市企業致力創新發展 ESG 報告，同時改善他們在環境、社會及管治範疇上的表現。

學會的前會長將組成首輪評審團，對項目進行首回合的篩選。專業評審團則由政府高層、業界領袖、學術界和科技專才組成，他們將在入圍決賽的項目中選出得獎者。專業評審團由香港測量師學會前會長劉振江測量師擔任召集人，確保專業性和認受性。

ESG 目標

總而言之，香港測量師學會已為測量師提供清晰的 ESG 目標。學會矢志透過專業的影響力提倡可持續及負責任的營商模式，建立可持續發展的房地產業界。學會協助政府制定政策，提供與 ESG 相關的意見；與持分者維持緊密聯繫、保持溝通；同時走進社區，提高公眾對可持續發展的關注。

锚定新未来 协助新发展—— 第一届中国测绘地理资讯大会综述

向「新」而行，共创未来。11月8日~10日，第一届中国测绘地理资讯大会在浙江德清召开，测绘地理资讯产业进入「德清时间」。

会上，与会代表专家纷纷表示，今年全球经济面临复杂多变的形势，但广大测绘地理资讯企业迎难而上，破浪前行，成绩来之不易。谈到产业发展和科技创新的未来，大家都很乐观：“韧性足、信心强、前景好。”

「数」读信心：产业发展稳中向好

从数据看信心和底气。作为首届中国测绘地理资讯大会，中国测绘学会、中国地理资讯产业协会、中国卫星导航定位协会分别在大会上发布了《2023中国测绘地理资讯科技创新与产业发展报告》《中国地理资讯产业发展报告（2023）》《中国北斗产业发展指数报告》，揭露了一系列重要数据，具体都释放了哪些讯号？

和往年相比，今年的产业数据不算优秀——产业仍维持成长势头，但成长放缓。根据上述报告，2022年我国地理资讯产业总产值达7,787亿元，成长率仅3.5%。2022年我国卫星导航与位置服务产业总产值为5,007亿元，年成长率为6.76%，为有监测统计资料以来的历史最低点。

从数据不难看出，过去的一两年，测绘地理资讯产业的规模仍呈现一定的成长态势，但同时也面临生动力不强、需求不足、转型升级面临阻力等困难，导致产值成长出现明显下降。

然而，数据也传递出产业发展的正面变化——产业规模稳定成长的同时，结构在优化。

报告显示，北斗产业发展综合指数相较2013年，成长超过424%，北斗产业迈入高品质发展新阶段。其

中，产业化指数最高，市场化指数次之。市场化指数从2018年的138点增加到2023年上半年的382，四年半时间增幅超过176%，北斗产业的市场化水准显著提高，说明产业发展已从需要政府大力扶持的初级阶段，逐渐转变为主要透过市场获得回报的成熟阶段，产业发展方式从政府投资拉动向市场需求驱动。投融资、基金、专利等指标大幅增加，则意味著北斗产业日渐被资本市场关注，技术转移与应用更倾向于采用市场的方式进行，应用需求的数量和范围不断扩大。此外，得益于大众消费领域的大量用户，大众应用指数增幅明显。

据了解，2022年我国国民用遥感卫星发展迅猛，商业遥感卫星在数量上已成为主体。截至2022年末，我国国民用遥感卫星在轨工作卫星数量为294颗，其中商业遥感卫星在轨工作卫星数量为189颗，占比超六成。2022年我国新增遥感卫星中，商业遥感卫星占82.6%。

北斗「走出去」的形式，从一开始的「搭车」重大计划走出去，逐渐转变为「搭车」走出去和产品走出去并举的局面。

另外，令人欣喜的是，科技创新和产业发展的良性互动正在形成——研发投入占比维持稳定，创新能力持续提升。

根据统计，71家地理资讯上市企业（不含港交所上市企业）2022年研发投入总额165.7亿元，年增11.4%，平均每家为2.3亿元；研发投入总额占营收总额11.1%，较上年增加0.9个百分点。2022年，全国1,571家甲级测绘资质单位共获得专利授权4.96万件，较2021年成长28.49%，科技创新动能强劲。

同时，测绘地理资讯科技创新与产业发展取得了一系列新进展新成效：北斗卫星导航系统成为重要新型基础设施；国产晶片出货量超亿级规模，国外同类晶片支援北斗系统，形成良性发展态势；自然资源部作为领导主用户的国产在轨卫星达25颗；以实景三维中国为时空基底，形成全国国土空间规划「一张图」等。

长期看，测绘地理资讯产业发展未来不改向好态势，潜力大。

「创」新答案卷：形成新质生产力·赋能高品质发展

天下之事，非新无以为进。高品质发展，创新是关键。

首届中国测绘地理资讯大会的科技含量满满。

会议的主题即为“科技引领 创新驱动 北斗赋能 产业强国”，37场分论坛的内容也皆与创新息息相关。

会上颁发了第二十二届夏坚白测绘事业创业与科技创新奖、2023年测绘科学技术奖、地理资讯科学技术奖、卫星导航定位科学技术奖等奖项，鼓励广大测绘科技工作者投身技术创新、潜心科学研究。

为了更好地推动测绘地理资讯创新发展，会上，自然资源部宣布，联合浙江省人民政府建设莫干山地信实验室，共同打造测绘地理资讯领域国家级科技创新平台；支持德清加速国际地理资讯学院建设，推动德清成为测绘地理资讯领域汇聚中外高级人才和培养国际化人才的高地。

分论坛上，实景三维中国 MA 基础地理实体标识节点试点宣布在全国正式启动建设，首先将在安徽省、山东省、武汉市青山区开展试点，支撑建构地方统一时空大数据平台，实现区域内自然资源的「一码统管」。

「我们要加速推进时空数位化变革，强化测绘地理资讯科技创新，推动形成新质生产力，赋能高品质发展。」自然资源部国土测绘司司长、中国测绘学会副理事长张继贤在发布《2023中国测绘地理资讯科技创新与产业发展报告》时介绍，近年来，我国坚持自主创新，找准定位、主动对接、深度融合，在大地测量与导航定位、测绘遥感地理资讯资料取得、地理资讯资料处理及服务方向取得了突破性进展，为全面推进测绘地理资讯转型升级发挥了重要的科技引领作用。

——在大地测量与导航定位方面，国际地球参考框架维持精度已达毫米，GNSS数据处理从离线转向在线；我国自主重力测高卫星发射成功，海底大地测量取得关键突破；室内外导航定位技术快速发展，室内外无缝导航技术体系逐渐形成。

——在测绘遥感地理资讯资料取得方面，我国卫星遥感已形成，由陆地卫星、气象卫星和海洋卫星组成的强大

对地观测体系，在数量和品质上都达到世界先进水平，开启了智慧服务；无人机网路服务成功落地应用，三维扫描、视讯感知成为空天地一体化感知的重要手段。

——在地理资讯资料处理及服务方面，实景三维成为业界关注热点并取得突破；遥感解译智慧化程度不断提升，高品质时空赋能的服务体系初步建构。

创新力量：企业「硬科技」亮点纷呈

企业不仅是经济发展的“发动机”，也是科技创新的主力。《中国地理资讯产业发展报告（2023）》显示，企业创新主体地位增强。在第二十四届中国专利奖中，地理资讯相关得奖项目共30项，其中企业获17项。从近三年获奖情况来看，中国专利奖中地理资讯相关项目获奖比例逐渐提升，企业成为优秀专利贡献主体。

在德清，测绘地理资讯企业同样充分展现了巨大的创新力量。同期举办的中国测绘地理资讯技术暨北斗应用博览会，展示了实景三维建模软体、大型多镜头航空倾斜摄影机、多波束无人水下地形测量船等我国测绘地理资讯科技与北斗应用的先进装备与最新成果。

展会上，许多具有先进性、独特性、前沿性的产品和技术，让观众身临其境地了解了企业的「硬核高科技」。

中海达全面展示了应用在地理资讯、矿场、水利、电力、铁路、石油石化、紧急管理、交通等产业的多款产品及解决方案。

超图展出了 SuperMap GIS 2023 系列新产品及其在新一代三维 GIS、云端原生 GIS、遥感 GIS 一体化等方面技术新进展。

北京合众思壮科技股份有限公司携全系列产品及解决方案亮相，新推出的监测型 GNSS 接收机 MC10，可满足各种现场应用，广泛应用于桥梁、矿山、车辆、风电等产业领域，并能轻松应对离岸风力发电基础监测、风机机舱姿态监测等特定应用情境。

11月9日，北斗星通发布了高精度定位服务产品，包括厘米级定位服务及分米级定位服务，率先提出了「云芯一体」的解决方案，将大幅度提升用户终端在

复杂场景下的高精度定位效能和可用性。

国地科技则将 AI 与语言大模型、图像大模型与国土空间规划业务结合，建立了 AI 辅助国土空间规划编制—审批—实施—监督的全流程服务方案。

北京东方至远科技股份有限公司发布了全国地表及高精度城市形变一张图 2.0、「一带一路」国家地表形变一张图 1.0 等重磅产品。

展会现场，DJI 大疆产业应用发布了无人值守作业平台大疆机场 2 和新一代航测雷射雷达禅思 L2。其中，大疆机场 2 助力测绘调查进入无人值守时代，全新雷射雷达禅思 L2 则拥有多项自主研发技术，配合国产化工业软体大疆智图，进一步降低了操作门槛，提高产品易用性，实现作业流程从硬体到软体的全方位闭环。

产业发展要更具「科技范儿」。据了解，下一步，自然资源部将坚持科技创新与产业发展一体化推进，加速测绘地理资讯科技高水准自立自强、产业高品质发展，打造良好创新生态，并加速形成创新引擎。

HKIS Members Welfare Committee – Lai Chi Wo Day Tour

The HKIS Members Welfare Committee organised a Day Tour to Lai Chi Wo on 25 November (Saturday) in collaboration with the Hong Kong Architectural Centre. 28 HKIS members and President Sr Paul Wong joined the tour where they were impressed by the serene beauty of this ancient village with traditional Hakka culture and breathtaking landscapes.

The group first visited the Lai Chi Wo Eco-Smart Public Toilet with the introduction by Prof Stephen TANG, BBS, Head of Countryside Conservation Office, The Government of the HKSAR. The toilet is the first-ever building in Hong Kong that achieves the design standard of “Advancing Net Zero” embodied carbon emission as defined by World Green Building Council.

Mr Tsang Wai-yip, representative of Lai Chi Wo Village, then introduced the history and recent situation of the village; architect Mr Benjamin Yiu and Mr Kevin Li, introduced the renovated Hong Kong Countryside Foundation village houses & sitting out areas, ChinaChem Lai Chi Wo Story Room and Siu Ying Story Room.

It was an unforgettable experience to visit this hidden gem nestled in the heart of Hong Kong's countryside. Looking ahead, the HKIS Members Welfare Committee is excited to organise more engaging activities in the future to cater to the diverse interests of our members.

樂齡俱樂部

參觀建造業議會數碼分身中心

「樂齡俱樂部」於 10 月 27 日舉辦「參觀建造業議會數碼分身中心」活動，吸引一共 13 位參加者。

參加者一同於建造業議會數碼分身中心合照留念

參加者到達後首先參加了由建造業議會代表提供的講座，中心代表先簡單講解甚麼是數碼分身——它是現實世界實體和流程的虛擬分身，以特定的頻率和擬真度與現實世界進行同步更新。藉助於數碼分身，可以在資訊化平台上了解物理實體的狀態，甚

至可以對物理實體裏面預定義的介面元件進行控制。它具有不同的整合程度的場面，包括最簡單的數碼模型、數碼影子/靜態數碼模型、以及全自動收集數據及自己回饋反應的數碼分身/動態數碼模型。建造業議會代表亦向參加者簡介了在建造業使用數碼分身的 6 個領域，包括：「智慧數碼共享」、「智慧規劃及設計」、「建築信息模擬智慧呈交」、「智慧場外預製組件及交付」、「智慧工地管理」、「智慧資產及設施管理」。

樂齡會員委員會主席何國鈞測量師（右）向建造業議會數碼分身中心代表致送感謝狀

講座後，建造業議會代表便帶領參加者到各領域的展區作更詳細的介紹，每個展區都有影片或模型介紹數碼分身的應用場景。例如「智慧工地管理專區」，便展示了一些用來收集工地工人數據的用具如智慧安全帽、手錶、定位追蹤器；而「智慧場外預製組件及交付」便示

範了如何透過數碼分身去設計組件運送、交付、組裝等流程，以縮短工序時間。各參加者透過這次參觀都對「數碼分身」的概念、應用場景以及未來發展都有更進一步的認識及了解。

參觀房協「長者安居樂」住屋計劃項目 - 豐頤居

「樂齡俱樂部」於 11 月 7 日舉辦「參觀房協『長者安居樂』住屋計劃項目 - 豐頤居」活動，吸引 15 位參加者。

參加者一同於豐頤居合照留念

房協代表首先向各參加者簡介「長者安居樂」的理念。該住屋計劃旨在為年滿 60 歲並具有足夠經濟能力及身體狀況基本良好的人士，提供自主、躍動及關懷支援俱備的生活環境。單位均以「長期租約」形式出租，長者在「一筆過」繳付租住權費後，便無需繳付租金，入住期間只需每月繳付管理費及基本服務費，以及因應個人需要及喜好，自費享用各項服務。代表亦介紹長者安居樂的申請資格以及收費。

之後房協代表便介紹豐頤居的設計特色。「豐頤居」坐落紅磡利工街，為房協「長者安居樂」住屋計劃下第 3 個終生租賃資助性住屋項目。它以「長者友善」為建築設計核心概念，從室內規劃、服務範疇及設施配套都致力締造實用、安全及品質兼備的優質生活。屋苑設 24 小時保安管理，配合「智能樂齡緊急支援系統」及服務團隊的專業支援，支援住戶的日常所需，全方位實現居家安老。

參加者參觀空中花園內的各個設施

簡單介紹後房協代表便帶領參加者參觀豐頤居內不同的設施，包括住客會所 The Golden Bliss、空中花園 The Silver Sky、復康中心、醫療中心、安老院舍「優進生活」等。住客會所內除了有針對長者使用的健身裝置外，亦有不同房間以舉辦不同類型針對長者身心的講座。而空中花園內除了有位置可供長者借玩的益智棋類如魔力橋和低體力要求運動如芬蘭木棋外，更有康健設施以及小花園，適合不同性格的長者。

最後參加者亦到了位宿單位參觀，單位內每個細節都顧及長者的住宿需要：除了大門設高低位雙防盜眼、全屋低門檻、趟門洗手間、防滑地磚、

扶手、無火煮食和每戶獨立消防火警燈等，還特別新增廚房活動式地櫃、窗戶攪動開關，以及每個樓層均有主題顏色設計，方便長者辨認。項目更引入全新的「智能樂齡緊急支援系統」，除了為單位提供 24 小時緊急支援，在屋苑其他位置需要協助，長者住戶只要按動配有定位功能的隨身裝置，都可得到適時協助，確保安全。

參加者參觀了豐頤居後，都對計劃及各樂齡設施大感興趣，亦讚賞屋苑設計人性化及貼心，為家居安老提供非常理想的選擇。

The HKIS Outstanding Dissertation/Thesis Awards 2022 Executive Summary of Winning Papers

A STUDY ON CORRUPTION RISK MANAGEMENT VIA THE NEW ENGINEERING CONTRACT (NEC) FOR CONSTRUCTION PROJECTS

Undergraduate Category (QS): Merit Award
Awardee: LAU Ho Wang
Department of Architecture and Civil Engineering, City University of Hong Kong

Traditional contracts, such as the Standard Form of Building Contract and General Condition of Contract, have been widely used in Hong Kong for decades. Yet, due to its prolix style and unbalanced risk allocation, disputes may frequently arise amongst contractual parties while adopting traditional contracts. Contractual disputes often trigger adversarial relationships between the parties and often provoke negative project outcomes. Vowing to improve the situation, the Hong Kong Government has avidly promoted the NEC in recent years, which encourages cooperation between contractual parties. Indeed, as demonstrated by numerous previous projects and research, a cooperative work setting created by the NEC may lead to positive project outcomes.

Nevertheless, the potential existence of corruption in such a proximate partnership is generally sidestepped. If the potential

corruption remains ignored, the unique mechanisms in the NEC may be paralysed and, hence, the full potential of the NEC would never be unleashed. Consequently, corruption may render it ineffective in mitigating the dispute-oriented nature of the construction industry. Concerning the criticality of this issue, the captioned research embarks on a quest to investigate the impact of the NEC on corruption prevention.

The author disseminated a questionnaire to collect opinions from professionals in the industry regarding the NEC's characteristics, corruption characteristics and NEC's outcomes. The results revealed that all NEC characteristics were negatively related with the characteristics of corruption, indicating that the NEC could cope with corruption. Besides, the characteristics of corruption and NEC's outcomes were all negatively related. Therefore, overcoming corruption should be the only way to realise the full potential of the NEC.

Developed on the identified negative relationships amongst NEC characteristics, corruption and NEC Outcomes, the author proposes some practical recommendations regarding corruption prevention in an NEC project. He encourages that Option X1, 'Price Adjustment for Inflation', should be actively adopted, since it aims to reduce the contractor's financial risk due to price inflation, thereby achieving more equitable risk-sharing. Besides, contractual parties should use Option Z, 'Additional Conditions of Contract', prudently and responsibly, to avoid extensively amending the NEC. Meanwhile, targeted to prevent corruption within an organisation, contractual parties should periodically hire impartial external auditors and grant them sufficient authority to inspect company accounts and ledgers. Only by maintaining a close, yet regulated, partnership between contractual parties will the NEC become an ideal alternative to traditional contracts. Eventually and hopefully, the dispute-oriented nature of the construction industry can be reversed by leveraging the NEC's full capabilities.

Building Surveying Division

Sr Arthur Cheung BSD Council Chairman

This is the final Chairman's Message of my term. I still remember being elected BSD Chairman on 27 November 2021. In my acceptance speech, I talked about the BSD Council's mission, which was "Professional, Supportive, Caring, Engaging and Having Fun! (厚積 . 凝聚 . 感受)" and serving BSs. After two years of collective effort by the entire Council, I hope that members are happy with what it has delivered for them, particularly the BSD Channel Series, Building Doctor Logo, etc. Allow me to say good-bye to you by summarising the division's accomplishments.

In January, the BSD successfully resumed its retreat after Covid measures were relaxed. The event kicked off the division's planning efforts for the Council year. Eleven months later, I'm delighted to announce that I had the full support of all Council members, Co-opted members, and others in my management of Council matters and the BSD's organisation of promotional, educational, and knowledge-sharing events.

1. Membership

BSD membership increased by 36 Corporate members (2.2%), but decreased by nine Probationers (1.2%) and experienced no change in the number of Associate members. Its net membership gain over 2022, excluding Student members, was 27 (+1.2%).

| BSD Membership Statistics (as of 15 November 2023) | | | | | | |
|--|--------|-------------------|--------------|----------|-------|--------------------------|
| Corporate Members | | Associate Members | Probationers | Students | Total | Total Excluding Students |
| Fellow | Member | | | | | |
| 109 | 1,539 | 1 | 736 | 113 | 2,498 | 2,385 |

I have noticed that of all mainstream practices selected by surveying students, building surveying ranked second. Also, the BSD submitted two honorary fellow nominations to the General Council (GC) in May and both nominees were successfully elected during the EGM on 30 August.

2. Professional Development

(a) Assessment of Professional Competence (APC)

Two Practical Task examinations were organised in 2023. 55 candidates attended the May session, while 83 candidates joined the November session. The pass rates were 43.6% and 57.8%, respectively. The questions this year encouraged candidates to interact more with assessment panel members to simulate real-life work situations for BSs.

There were two final assessment days in 2023 – 4 March and 28 October – during which the panels interviewed 53 candidates. The BSD resumed holding panel interviews at HKIS headquarters on weekdays and Saturday mornings. These measures successfully shortened candidates' average wait times for the Final Assessment.

Thanks go to all DEC members for their efforts during the assessments.

(b) Continuing Professional Development (CPD)

The CPD panel organised 38 CPD events in 2023 that collectively attracted over 5,000 participants.

With the kind assistance of Past President Sr Daniel C Lam, the BSD organised a CPD series called, "Understanding Projects for Health Services in Hong Kong Series," to allow its members to learn the latest developments in the design and maintenance of such critical facilities in Hong Kong. The series comprised two CPD Seminars and site visits to two remarkable health projects (the HA Supporting Services Centre and Kwong Wah Hospital).

To encourage members to register as Authorised Persons (APs), the BSD invited three experienced APs – Sr Andrew Kung, Sr KC Lee, and Sr Carmen Lai – to speak at a sharing session on 19 August about the necessary preparations for the AP examination. This CPD attracted 77 qualified members, some of whom left very positive feedback on the event. The

BSD looks forward to seeing more BSs join it as APs in the near future.

(c) Research

Through the great efforts of researchers and Working Group members, the research report, “Professional Guide to Building Inspections – Post-1980 Residential and Composite Buildings in Hong Kong,” has been finalised. The guideline preparation work will commence very soon.

(d) Certificate for Module (HKIS Training Course on Heritage Conservation for Building Surveyors)

To strengthen members’ technical and practical knowledge of Heritage and Conservation, the BSD is organising with HKU Space a structured heritage conservation programme for its members. Details of the 48-hour course were confirmed and QF Registration for Level-6 was approved by the authority. The tentative start date of the course should be no later than the end of Q1 2024.

(e) Professional Publications

Working groups were set up under the leadership of BSD Vice Chairman Sr Nathan Lee to review the current edition of its professional guide and draft the Guide on Design for Maintenance.

(f) Government Consultations

BSD representatives were actively involved in different consultations with the Government on topics such as the performance-based GFA concession scheme, e-submissions, the streamlined processing of the approval process, basement car parks, construction safety, etc. The BSD regularly met with the Architectural Services Department to exchange views on BS-related subjects including APC, market and technological developments, etc.

(g) Mainland Affairs

The BSD successfully rekindled connections with its Mainland counterparts in 2023 after cross-border travel restrictions ended. In April, China Association of Engineering Consultants

representatives from Guangdong visited Hong Kong, where the BSD held fruitful lunch and dinner meetings with them. To tackle China’s ageing building problem, both institutes agreed that building maintenance and 小區改造 would be their main focuses within the GBA.

Also, the BSD and Professional Building Surveying Consultants Association of HK joined the 第三屆廣東省工程交易會 to promote their professional services to GBA citizens. In September, the BSD organised a 20-member visit to the GBA (Guangzhou/Nansha).

(h) Trademark Application

To address members’ concerns over the public’s use of 樓宇醫生, the BSD filed an application to the Trade Marks Registry in 2022 to patent the term and it was approved. The Council then engaged a designer to develop a 樓宇醫生 logo. Four logo candidates were produced for BS members to vote on in August and 149 valid votes were received by the given deadline. Option 1 won with 53 percent.

The Council then agreed on the color scheme and fonts for further development based on Option 1. All graphics were ready and the branding guidelines were drafted by September. The BSD engaged a PR consultant to plan for the logo’s official launch. In addition, the Trade Marks registration for the term, “building doctor,” was approved.

3. Education

(a) Outreach to Students

A Joint University Talk to promote the BS profession was held for university surveying students from CityU, PolyU, THEi, and HKU on 18 January. Representatives from different Government departments joined the talks.

(b) Relevant Degree

To deal with overseas graduates’ APC applications, the Council has been working closely with the BoE to review the “Relevant Degree” arrangement and its requirements under the APC Rules and Guides.

4. Promotion and Publicity

(a) General Media

BSs continue to enjoy strong exposure in the media on issues such as building design, fire safety, building safety, UBWs, traps in fitting-out works for residential units, streamline processing, sustainability, views on the Government's 2023 Policy Address, the Building Affairs Expert Determination Centre setup, pre-acquisition surveys of second-hand domestic premises, subdivided flat and construction site safety, etc. The BSD appreciates the dedicated efforts of spokesmen and veteran surveyors on behalf of the profession.

(b) *iMoney* Magazine

The Council published 67 articles in the past two years in *iMoney* Magazine to draw the public's attention to building surveying, safety, other building-related matters, and their importance to society. In 2023, the articles will be consolidated in a book, 《屋有必測之風雲》, to further promote the BS profession.

(c) BD and PGBC Programmes' BS Company Visit

To support the Buildings Department and Professional Green Building Council's student engagement efforts, the BSD has successfully recruited some BS firms to host student visits and introduce the BS profession to the students.

(d) BSD Channel

Since the launch of the BSD's first official channel series, 《鍾 SIR 解構 123》, on 15 November 2022, the number of channel subscribers has increased tenfold to around 1,220. After the series' first season concluded, the BSD convinced Sr Prof Chung to stay on to shoot the sequel, 《鍾 SIR 解構 123 II》, which premiered on 15 June. For that, I sincerely thank Sr Prof Chung, the Working Group, and all support team members.

In 2023, the BSD decided to produce three more ten-episode series. The Working Group successfully lined up two HOKLAS laboratory to help produce the third channel series, 《入實

驗室揪十粒掣》, which aims to show members the different required tests' technical details, the HOKLAS system, and the BSD's professional involvement. Shooting began in October. Also, the Working Group booked guests for the BSD's upcoming interview series. It will continue to operate the channel with a goal of turning it into a YouTube platform for sharing BS knowledge/stories among BSD members and promoting BS to the public.

(e) Website

The Council reviewed and updated the division's English website in 2023 by removing all outdated information and adding lists of DBSs/past chairmen and Building Surveyor Award (BSA) past winners. It also reviewed the Chinese version of the website.

(f) Press Release

On 7 August, a BSA press release reminded the public about the right approach to timely building maintenance and reiterated the importance of appointing the right professionals to conduct building inspections.

5. Social and Community

(a) Extension of the Building Affairs Expert Determination Centre (BAEDC) Pilot Scheme

The BAEDC, which launched in November 2022, is a resource that helps the public resolve building-related disputes in a more timely and cost-effective manner. Unlike the traditional litigation approach, an expert determinator can provide the public with technical proposals for rectification works. Expert lists were established for water seepage, decorations, fitting-out works, and repair and maintenance works for existing buildings. The pilot scheme will be extended for one year and its promotional strategy may be strengthened during this period.

(b) Working Groups on: (1) Pre-Acquisition Surveys of Second-Hand Domestic Premises & (2) Handover Inspections of New Residential Units

The working groups on the pre-acquisition surveys of second-hand domestic premises have developed a set of checklists. The framework was tabled and endorsed during the Council meeting and will be forwarded to the Government in due course.

(c) Government Talks, Interviews, and Videos

For public education purposes, BSD representatives have joined different Government talks/interviews and video productions, including those organised by the Buildings Department, HAD, PSMA, etc, to promote proper building maintenance and avoid UBWs, BAEDC, etc.

(e) Press Conference

After news broke on the unauthorised structural wall removal works, the BSD immediately held a press conference on 30 May to offer its views and recommendations to the public.

(f) Universal Design and LWB Funding Application

With funding approval by the LWB, a research project will commence to enhance BFA provisions in existing buildings.

6. Conferences, Awards, and Events

(a) Building Surveyors Conference 2023

The Building Surveyors Conference 2023 was successfully held on 13 October with over 250 participants in attendance. This year's theme was "Impact on Built Assets: Proactive Maintenance and Rehabilitation". The BSD had the pleasure of inviting Ir Wai Chi Shing, GBS, JP, Managing Director of the Urban Renewal Authority, as its Guest of Honour and to deliver the opening keynote speech.

(b) Building Surveyor Awards (BSA) 2023

The BSA 2023 Presentation Ceremony cum Gala Dinner was successfully held on 16 June. The BSD was proud to have Ms Bernadette LINN, JP, Secretary for Development, as its Guest of Honour. The Grand Award Winner was Freevision Limited's Modular Social Housing Project, Cheong San 1. Congratulations to all award winners and sincere thanks go to the OC, particularly OC Chairman Sr Kenny Tse, jury panel members, participants, and sponsors for their invaluable support.

(c) Happy Hour Gathering with the Buildings, Architectural Services, and Housing Departments

The BSD organised two separate happy hour gatherings with the Buildings and Architectural Services Departments on 14 June and 16 August, respectively. Since the pandemic broke, such casual gatherings between the BSD Council/HKIS OBs and the relevant Government departments had been suspended. Now that restrictions have been lifted, these gatherings allowed both sides to reconnect, discuss topics of mutual concern, and exchange views in a relaxing environment.

The BSD has offered to help coordinate the happy hour gathering for December 2023 with the Housing Department.

(d) Young Members Gathering

The BSD held an Ask Me Anything forum Happy Hour in October with its younger members. In addition, several younger BSD members joined Young Chat 3.0, which was jointly organised by the BD, HKIA, and HKIS, to strengthen the connection between them and the BD, which invited Sr Vincent Ho and Sr Ivan Law as its key speakers and to present its BSA Grand Award project to participants.

7. Administration

(a) Stakeholders

Maintaining contacts and working relationships with counterparts, the Government, and

Mainland officials is essential. Throughout 2023, BSD representatives attended meetings and sharing sessions with local, national, and regional associations including various Government departments, the BEAM society, CIC, China Association of Engineering Consultants (CAEC), Chartered Association of Building Engineers (CABE), Royal Institution of Chartered Surveyors (RICS), etc.

(b) Representatives to External Bodies

BSD members were nominated to various committees, focus groups, and task forces administrated by different Government departments and statutory bodies. They included the BD, CIC, Surveyors Registration Board, Hospital Authority, Electrical and Mechanical Services Department, and Water Supplies Department.

(c) Internal Affairs

BSD members were also nominated to various boards, committees, and panels within the HKIS, while BSD Office Bearers were asked to support and share workloads on different Council matters.

8. New Opportunities and Proposals

The BSD shall continue to work on sustainability and innovative technologies to boost its competency. In the meantime, it is setting up a knowledge transfer hub for members and making better use of social media to help improve its internal and external communications.

Buildings Repair Authority and Buildings Ordinance Amendment

To address the public's heightened concerns over the risks posed by dilapidated buildings, UBWs, and poor maintenance, the BSD shall continue to promote:

- (1) the establishment of the Buildings Repair Authority to manage, control, and regulate building maintenance in Hong Kong;
- (2) pre-purchased home inspections for

- second-hand property transactions to eliminate existing UBWs in the long run; and
- (3) an amendment to the Buildings Ordinance to expedite order/notice compliance and enhance construction site safety.

Special tribute goes to Council member Sr Henry Chau, who passed away during a car accident in August, for all of his contributions to the BSD.

Last, but not least, I extend my heartfelt gratitude and sincere thanks to all Office Bearers, Council members, Past Chairmen, Distinguished Building Surveyors, core and Co-opted members for their hard work and contributions to the BSD during my chairmanship. I wish every success to the incoming Council, whose Chairman, Sr Nathan Lee, will announce the new Council to members in the December 2023 Chairman's Message. Please stay tuned!

General Practice Division

Sr Andrew Chan GPD Council Chairman

I am deeply honoured to accept the esteemed position of GPD Council Chairman, who is entrusted with guiding its endeavours for the next two years. In a world where land scarcity prevails as a pressing challenge across numerous countries, the demand for this finite resource continues unabated. It is vital that everyone approaches land use responsibly using strategic planning, so it is within this context that the GPD Council assumes its crucial role. The expansion and continuous professional development of the GP surveyor workforce remains the GPD's primary focus as it strives to make meaningful contributions to the development of a more sustainable built environment.

The Chief Executive's 2023 Policy Address continues to emphasise land and housing as its top priorities. The Government is committed to spearheading land production as it makes encouraging progress in expanding Hong Kong's housing supply. The GPD Council, in its role as the industry's voice, actively advocates for its interests and exerts influence on relevant policies. It intends to continue actively engaging Government bodies, industry representatives, and other pertinent stakeholders to shape policy decisions, advance the industry's interests, and enhance the welfare and progress of the entire community.

over the past four years, as well as extend my appreciation to all outgoing Council and co-opted members for their invaluable contributions to the GPD.

New GPD Council Members

The new GPD Council's first meeting occurred immediately after the AGM. It was an opportune moment to extend a warm welcome to the new Council and co-opted members. The Council has been reinvigorated by the infusion of new talent in the industry who bring fresh perspectives and energy to the division's collective endeavours.

PDD Annual Dinner 2023

The PDD Annual Dinner 2023 was successfully held in the Regal Ballroom, Regal Hongkong Hotel, on 27 October with the participation of over 100 diners.

This year, the PDD invited guests from 中聯辦; LegCo; 廣東省國土空間規劃協會; the Hong Kong Institute of Planners (HKIP); and professors and students from HKU, PolyU, CityU, and THEi.

The Annual Dinner was a good opportunity for members to network and meet new friends within the surveying industry. It also allowed students to know more about the surveying profession. The banquet hall was filled with warm exchanges, joy, and laughter.

I express my gratitude to the Dinner's organising committee and sponsors, without which it would not have been so successful.

3. Joint Events and Collaboration with the Hong Kong Institute of Planners (HKIP)

This year, the PDD has organised several joint activities with the HKIP.

In April, the first joint institutes social drinks gathering was held at the K11 Art Mall and was well received by members of both institutes.

The second activity was a joint professional tour of Singapore from 20-23 September.

Moreover, a joint site visit to Hong Kong International Airport's Airport City was held on 13 October.

The PDD looks forward to collaborating with the HKIP again on the Greater Bay Area Planning Awards 2024 and on future joint CPDs/visits.

4. Visit to Singapore (20-23 September 2023)

The Singapore Institute of Planners (SIP) invited the PDD to attend the 8th SIP Planning Awards Presentation and Gala Dinner on 22 September during its visit to the city.

Also during the visit, HKIS delegates met AECOM, Colliers, and Urban Development Authority representatives to learn about the city's latest developments.

The PDD arranged its own dinner gathering with the Singapore Institute of Surveyors and Valuers to explore the possibility of future collaboration.

SIP President Mr Djoko Prihanto met with the PDD and shared with its members Singapore's plans, changes, and new initiatives from a professional point of view, as well as briefed them on the city's major redevelopment projects.

Last, the PDD visited Housing Development Board (Singapore's Public Housing Authority), Our Tampines Hub (Singapore's first and largest integrated community and lifestyle hub), and Jewel Changi Airport.

5. University Visits

This year, the PDD has actively promoted the planning and development (P&D) surveying profession to students at HKU and CityU. The objectives of these visits were to introduce the Institute, the scope of P&D professional services, membership admission routes, and APC trainings and requirements. I hope that at least some of the students who attended the events will choose to become P&D surveyors.

6. HKIS Diploma Presentation 2023

The HKIS Diploma Presentation Ceremony was successfully held at the Hong Kong Convention and Exhibition Centre on 10 July.

During the presentation, HKIS President Sr Paul Wong and I presented diplomas to newly-elected Members and Fellows.

Congratulations go to PDD Honorary Secretary Sr Junior Ho for achieving Fellow status and new member Sr Stuart Wong, who joined the PDD Council as a Co-opted Member.

7. PDD X YSG PQSL Short Courses

The third term of the PDD PQSL short courses successfully concluded in August. This year, the short courses were jointly organised by the PDD and YSG and offered members an excellent opportunity to enhance their knowledge in the field of planning and development, as well as provided comprehensive trainings to students/probationers before their final APCs.

The course covered various topics such as land administration, building control and regulations, planning law and practices, and development appraisals and viability studies.

The response to the course was overwhelmingly positive. For that, I thank the speakers for their unfailing support and PDD Vice Chairman Sr Victor Ng, Sr Wilson Ko, and Sr Samuel Law of YSG for organising the event.

China International Property Management Industry Expo 2023 (中國國際物業管理產業博覽會 2023)

Reported by Sr Charles HUNG, PFMD Chairman

The PFMD organised a group tour to the China International Property Management Industry Expo 2023 in Futian District, Shenzhen, on 13 October.

The Expo was organised by the China Property Management Association (中國物業管理協會). Its exhibition areas were spacious and divided into different zones, which covered the institutional organisation booths including the PMSA (Property Management Services Authority Hong Kong) and other property management associations. Over 200 traders associated with property management, green/sustainability products, IT businesses, some discussion platform areas, etc, joined this event. The Expo provided knowledge exchange platforms to promote advanced and modern IT property management skills with a view to raising its standards and attracted over 800 participants.

PFMD Chairman Sr Charles Hung (6th from left), HKIS President Sr Paul Wong (7th from left), Vice President of the Shenzhen Property Management Association Mr Chen Yaozhong (8th from left), Deputy Director of Kai Shing Management Services Limited Mr Kevin Chu (7th from right), Chairman of the Expo Organising Committee Sr Louis Lee (6th from right)

At the “Discussion Forum of ‘The New Area of Innovative Facility Management in the Greater Bay Area’” (粵港澳大灣區現代物業創新發展論壇) organised by the Shenzhen Property Management Industry Association (深圳物業管理協會), PFMD researcher Dr Cynthia Hou gave a talk on manager’s remuneration under the Deed of Mutual Covenant (DMC) in the morning. Sr Paul Wong opened the afternoon session by highlighting the importance of promoting the Hong Kong PM industry’s role in advancing economic development, quality of life, and social stability through its collaboration and knowledge exchanges with its GBA counterparts. Mr Kevin Chu, Deputy Director of Kai Shing Management Services Limited, introduced his company’s property management work in Hong Kong. Ex-PFMD Chairman and PMSA Vice Chairman Sr Prof Eddie Hui explained the licencing regimes of property management practitioners and discussed the PMSA’s work and goal of raising professional standards to protect property owners’ interests.

Mainland speakers ranged from government officials (eg 深圳市住房和建設局) to private property management companies (eg 保利物業) and IT companies (eg Tencent). They illustrated the application of AI, BIM, IoT, etc, to the property management and other industries. The topics were interesting and provided a

good platform for knowledge exchanges and innovation from wider perspectives to improve professionalism and internationalism.

The HKIS’s journey to foster closer links and more joint events with its Mainland counterparts has been fruitful.

A Site Visit to Discovery Bay’s Unique Facilities

Reported by Sr Maxine YAO, Council Member

Fourteen PFMD surveyors joined a group tour of the unique facilities in Discovery Bay on 14 November. The delegation first boarded a vessel, which doubled as a “floating classroom,” and learned about the past, current, and future development of this corner of Lantau Island. Members also had the opportunity to learn how to be captains. Then they went to a hotel stable to see a horse and try to manage it. They visited “Green Icon” to learn about the process of solid waste classification, farming, greenhouses,

and orchards. In this neighbourhood, 18 town villages had their own farms to create a truly green and environmentally-friendly livelihood.

Finally, the delegation visited a reservoir with a water depth of nearly 50 meters and a luxury show house on top of Discovery Bay Hill. One can buy a detached house with a full sea view in Hong Kong for under \$100 million.

Sr Daniel Hui (2nd from left); Assistant Director of Discovery Bay Services Management Mr Ernest Lee (3rd from left); Sr Kays Wong (4th from left); Sr Kenny Chan (5th from right); Director of Discovery Bay Services Management Mr Simon Tu (4th from right); Sr Maxine Yao (3rd from right)

Property and facilities managers in Discovery Bay seem to enjoy “small chief executive” status there, as they have to manage vessels, buses, a tunnel, eight schools, a reservoir, golf course, yacht club, hotel, and shopping malls. In terms of diversity, over half of the 20,000 residents in Discovery Bay are expatriates and the ratio of tenants to owners is 50:50. Those who manage property and facilities have to cater to a wide range of clients representing different nationalities and cultures. This explains why property managers seem like minor lords of a small town.

Health and Safety for A&A Works

Reported by Sr Dick LI, PFMD Council Member

Sr Dick Li joined an HKIS project management seminar on 19 October at the HKIS Surveyors Learning Centre to deliver a talk on “Health and Safety for A&A works” to over 150 attendees.

During the seminar, six division representatives spoke about the entire building process from the planning to the design, construction, project management, land surveying, cost control, and facilities management stages, among other things. Each division presented its professional role in handling site constraints, difficulties, limitations, etc.

The ensuing Q&A session featured many questions asked and answered in a lively atmosphere. Project Management Committee Chairman Sr Bay Wong showed his appreciation for Sr Dick Li and presented him with a certificate of appreciation at the end.

HKIS QSD Conference

The QSD Conference was held on 28 October at the Royal Plaza Hotel with over 240 participants. The QSD welcomed Ms Winnie Ho, JP, Secretary for Housing, HKSARG, as its Guest of Honour. She gave an opening speech titled, “Quantity Surveying for the Next Generation of Housing Development”.

With the theme of “Mapping the Future of Built Environment: The Roles of Quantity Surveyors,” the conference brought together Government officials, business leaders, industry practitioners, and academics to share their insights and best QS practices. The conference addressed these challenges and allowed its participants to seize the opportunities that have emerged in the industry, which are in line with the Government’s development strategy of adopting digital technologies in construction and continuing Hong Kong’s transformation into a smart and green city.

Eight renowned speakers presented topics related to construction digitalisation, decarbonisation and sustainability, procurement and contract strategies, and contract disputes and resolutions. The presentations inspired participants to think about how quantity surveyors can refine their roles and contribute to the future built environment.

CPD Event: Do You Know BIM? Do You Know Open BIM? Do You Know Open BIM BQ? An Open BIM Approach to Quantity Surveying

A CPD was conducted on 24 November by David de Dios, a BIM software engineer from Spain.

Thanks to technological advances in the construction industry, BIM methodology has become a powerful tool that goes beyond the mere visual representation of architectural designs. Apart from revolutionising how projects are designed and implemented, it offers an innovative approach to developing accurate and detailed bills of quantities. Through the use of intelligent data and 3D models with a high volume of information, construction professionals can now take advantage of the benefits of BIM modelling to automate the extraction of properties and quantities from project elements. This allows for quantities to be measured more efficiently and a direct correlation to be made with cost databases.

Open BIM Quantities are used to prepare bills of quantities under the Open BIM environment. David explained, using illustrated examples, how to take quantities and prepare bills of quantities in projects that adopt Open BIM. A Q&A session followed his presentation.

I presented a certificate of appreciation to David and his colleagues Jaime Sempere and Qiming Wu.

Publication of the HKIS's BIM Measurement Information Requirements

Quantity Take-off (QTO) is a critical task for cost estimation, preparation of bills of quantities, etc. With BIM, the traditional QTO approach has shifted to extracting information from models for cost management needs. However, challenges to collaboration persist, as the requirements for QTO are not well understood and sometimes exaggerated.

To address this, the QSD Digitalisation Subcommittee took the initiative to prepare a publication, BIM Measurement Information Requirements, which lists the QTO information requirements on model elements/objects and QTO guidelines.

It is anticipated that this publication will contribute not only to the best practices of

BIM-based QTO, but also facilitate the collaborative practices among stakeholders. Furthermore, the Government's successful implementation of BIM in its projects should encourage private developers to adopt it more widely. To fully automate QTO, further standardisation requirements, coding systems, etc, must be explored.

Communication Meeting between the QSD, ACQS, DEVB, and ArchSD

On 17 November, HKIS President Sr Paul Wong, QSD Vice Chairman Sr Tim Ngai, QSD Hon Secretary Sr Eric Ting, and I met with representatives of the ACQS, DevB, and ArchSD. Other QSD and ACQS members joined the meeting via Zoom.

The meeting discussed several issues that were closely related to the delivery of services by consultant quantity surveying firms, the progress of and roadmap for the digitalisation of quantity surveying and cost management, and concerns over the inadequate supply of quantity surveying graduates amidst the high demand for professional quantity surveyors in the industry.

Thanks go to the 2022-2023 Committee for its unconditional support for and contributions to YSG during its first year after the pandemic was brought under control. With things returning to normal, some in-person events were held over the past year including CPDs, study tours, and our annual dinner.

I take this opportunity to express my gratitude to Immediate Past Chairman Sr Wilson Ko for his leadership throughout the year. I look forward to working with the incoming YSG Committee to organise more events for younger members. Thank you everyone who attended the AGM and I hope to see you at YSG's future events!

YSG Annual Dinner 2023

YSG's Annual Dinner returned for the first time since the pandemic! This year, it was held on 28 October at Neptune's Restaurant, Ocean Park. Over 150 participants dressed in Y2K-themed costumes shared in the festivities during this momentous night.

The event received great support from YSG's student members. Before the dinner started, game booths were set up by representatives from CityU, HKU, PolyU, and THEi. Two PolyU students emceed the dinner. YSG was delighted to see the participants enjoy the games and win tokens to exchange for snacks and cocktails.

During the dinner, participants joined in the stage games and drinking challenge to compete for bigger prizes. An exciting lucky draw with more wonderful prizes concluded the evening. Congratulations go to all winners!

Last, but not least, thanks go to the dinner's sponsors, General Council members, supporting organisations, past YSG chairmen, and all participants for supporting the dinner. Without their support, this year's Annual Dinner would not have happened.

YSG hopes that everyone enjoyed the night and looks forward to seeing more familiar and new faces next year.

CPD Event: Dialogue with Secretary for Housing

A meeting with Ms Winnie Ho Wing Yin, JP, Secretary for Housing, on the topic, "Insights into the Development and Future of Public Housing in Hong Kong," was held on 4 November. Over 150 members registered for this CPD.

Ms Ho opened the event with an address, which highlighted the importance of housing in creating vibrant and liveable communities. The event was divided into three sessions, namely:

- 1) The Development of Public Housing in the Next Ten Years
- 2) How to Help Hong Kong Citizens Buy Homes
- 3) Innovative Technologies and Artificial Intelligence Applications in Construction Project Management

During the final part of each session, panellists raised questions and hosted discussions with Ms Ho on various issues related to each session.

Overall, the event offered invaluable insights into the challenges and opportunities Hong Kong faces regarding housing. The event served as a platform for knowledge-sharing, collaboration, and the identification of the best practices to guide future policies and actions in the city's housing sector.

It has been quite busy for the HKIS's sports teams in recent months after most of its sports and recreational activities resumed. With the support and encouragement of ExCom members, various activities were organised such as hiking, running, sailing, table tennis, bowling, tennis, basketball league, badminton and singing. More to come are the Joint Professional Snooker Competition and Volleyball Competition, which will be held on 3 December and 17 December 2023, respectively. I have joined some of these activities and was glad to see many new members after the Sports & Recreation Committee (hereafter the Committee) published the QR codes for joining them. Based on the survey results, the Committee recommends:

- 1) Encouraging more members from divisions other than the BSD, QSD, and GPD to join the HKIS's recreational and sports events.
- 2) Organising more promotions and events to attract more members.

- 3) Providing more financial, venue rental, and coaching support.
- 4) Noting the feedback on each event so that it could refine future events and improve the cohesion and sense of belonging among surveyors. The benefits from doing so may not be apparent at first.
- 5) Expanding the type and number of activities to attract more members' interest and participation.

Sailing Team

Sailing Team participated in the Fifth Guangdong-Hong Kong-Macau GBA Regatta.

The HKIS Sailing Team led by Captain Sr Alain Choi and his teammates Sr Henry Cheung, Sr Willaim Lai, Sr Anita Ng and Mr Ray Chan competed the Fifth Guangdong-Hong Kong-Macau Greater Bay Area (GBA) Regatta (Shenzhen Station) on 23 and 24 September 2023 to echo the development of sailing and promotion of HKIS in the Greater Bay Area.

There were 29 teams of nearly 150 nos. of athletics participating in the five challenging and competitive races of the 2-day regatta. It is an honor for the HKIS Sailing Team to be the only representative from Hong Kong for this regatta. This is the first time for the team to race with a new class of sailing boat and follow the rules and guides in Chinese, of which it was a remarkable experience not only in improving the skills of team but also recognised the team's merit and inadequacy to encourage them to proceed further.

During the regatta, the Sailing Team met sailors from various professional backgrounds such as architects, engineers, solicitors and professor in surveying. Participants from China were interested to know more about

our surveying professions including a young architectural student who has expressed interests to exchange in surveying field in HK.

Sailing team remained silent during the covid-19 epidemic and would offer more training and welcome all members to join via the QR code below.

Hiking

It has been a long time since the HKIS organised a hike. On 28 October, a warm and sunny day, 11 members joined a hike from the Wong Ngai Chung Reservoir to Stanley Gap Road via Violet Hill. The trek took around three hours and thousands of steps to complete.

Although tired, members enjoyed chatting with each other during the hike and the panoramic views of Stanley from the mountains.

HKIS Singing Contest

On 18 November, 13 solo and three groups of singers delivered their best vocal performances while competing in a singing contest. The top three solo scorers in the first round advanced to the 2nd round and performed designated songs that were kept secret from them beforehand. Cheers and LED signboards put up by fans provided a concert atmosphere to the contest. The judges comprised Dr Melody Sze, HKIS President Sr Paul Wong, and myself.

Picking the winners was a difficult task. In the solo category, Sr Bon Ma Ka Chung won the

championship, Sr Harks Wong Ching Kit the 1st runner-up, and Sr Lo Chi Kit the 2nd runner-up. In the group category, Chou Yik Tung and Lau Tsz Kiu shared the title. The champions will represent the HKIS at the Joint Professional Singing Contest cum 10th anniversary dinner, which will take place on 31 January 2024 at the Western Market.
