

### **Overseas Academic Qualifications for Probationer Membership of HKIS**

Holders of academic qualifications conferred outside Hong Kong can apply for HKIS's Probationer membership if the qualifications are acceptable for admission to the corresponding probationer membership of HKIS recognized national professional surveying bodies of the respective countries in which the qualifications are conferred. A course offered in Hong Kong with the academic award conferred by an academic institution outside Hong Kong will fall into this category if the same course is open to students in the home country and abroad and the academic award does not make distinction as to the mode and location of course delivery.

Admission of an applicant under the HKIS Bye-Law 2.3.5(a)(i), (ii) or (iii) is on individual basis taking into account the whole of his or her academic qualifications and working experience.

Country	Professional body	Divisions
