

HKIS textbook sponsorship scheme

To cope with the need for surveying students in tertiary institutions in Hong Kong to learn about the industry via local topics, cases, and examples, the Hong Kong Institute of Surveyors' textbook sponsorship scheme was first established in 2010 to encourage our experienced members and university faculty members from relevant disciplines to write textbooks, or reference books, leveraging their expertise. The list of the sponsored books is as follows:-

	Title of the sponsored book	Status
